A Plain Account of Christian Perfection John Wesley 2013-08-20 John Wesley (1703-1791) is the chief architect and source of inspiration to the teaching commonly referred to as Christian perfection. Among his many publications, the book that best summarizes his teachings on holiness is A Plain Account of Christian Perfection, as believed and taught by the Reverend Mr. John Wesley, from the year 1725 to the year 1777. For many years this timeless classic has been reproduced in various formats. Now, for the first time, John Wesley’s ‘A Plain Account of Christian Perfection’ is being offered in a definitive Annotated Edition by Mark K. Olson. This edition is volume one in a projected three volume series. The Annotated Edition offers the following: · The entire text has been divided into chapters and verses for detailed study and cross-referencing. · The introduction examines in detail when and why Wesley wrote A Plain Account. · The verse by verse commentary discusses the history and background behind the text, offering unsurpassed explanation of Wesley’s doctrine of perfect love. · Five end notes address Wesley’s early doctrinal development, the impact of Aldersgate on his perfection doctrine, many testimonies of attaining perfection, and other relevant material from early Methodism. · Over 150 quotations from Wesley’s sermons, writings, and letters offer unlimited clarification to his views on perfection. · The insights of many Wesley scholars are included: Albert Outler, Randy Maddox, Kenneth Collins, William Greathouse, Thomas Oden, Harold Lindstrom, Stephen Gunter, H. Ray Dunning, Theodore Runyon, plus many others. · A timeline details every event in Wesley’s lifetime corresponding to A Plain Account. · Several exhaustive indexes are included: scripture, annotation, subject, author, Wesley quotations, and two synonym indexes from Wesley’s Journal and A Plain Account. · The Essential Reading Section further empowers the study of Wesley’s theology of perfection. Included are: o Twenty key sermons, along with their dates and locations in Wesley’s Works (both the Jackson and Bicentennial editions). o Wesley’s most important writings on perfection, listing their date and location in his Works. o 250 letters relevant to his theology of perfection. The index includes their date and location in Wesley’s Works, with a brief description of their contents. Two additional volumes are planned in the series. John Wesley’s Theology of Perfection will offer specialized studies for those wanting to dig deeper into Wesley’s theology of perfection. The third volume, John Wesley’s Doctrine of Christian Perfection, will present in systematic format every facet of Wesley’s views on perfection. The projected release for both volumes is 2006 and 2007. Together, these three volumes will present one of the most thorough and exhaustive studies ever done on Wesley’s most beloved, yet, most controversial doctrine.

attacks the three sacred cows of modernity: global thinking, the universality of human rights and the self-sufficient individual. Rejecting the constructs of development in all its forms, Esteva and Prakash argue that even alternative development prescriptions deprive the people of control over their own lives, shifting this control to bureaucrats, technocrats and educators. Rather than presuming that human progress fits a predetermined mould, leading towards an increasing homogenization of cultures and lifestyles, the authors argue for a ‘radical pluralism’ that honours and nurtures distinctive cultural variety and enables many paths to the realization of self-defined aspirations. This classic text is essential reading for those looking beyond neoliberalism, the global project and the individual self.

The Politics of Conversion
Christopher M. Clark 1995
Missionaries are people who operate on the border between their own community and another. The confessional frontier between the Christian and the Jewish communities in Prussia offers a privileged vantage-point from which to analyse the relationship between them. This is the first study to make comprehensive use of the archives and publications of the various Prussian institutions and societies that set out to convert Jews to Christianity. No other body of documentary evidence presents as informed and sustained a commentary on the ‘Jewish Question’ as it evolved in Prussia during the period covered by this book. Spanning over two centuries of protestant missionary activity, this book examines the ways in which theological, social, and racial themes intertwined in the relationship between the Christian majority in Prussia and the Jewish minority in its midst. These themes are analysed within the context of the rapidly changing relationship between religion and politics in the Prussian state, for ‘Jewish Questions’, as this book shows, were intimately connected with ‘Christian Questions’ of equal political and social consequence. This study sheds light on a facet of Jewish-German history that has been overshadowed by the rise of racial antisemitism and the ultimate tragedy of the Holocaust.

Faith-based organisations and exclusion in European cities
Beaumont, Justin 2012-10-03
At a time of heightened neoliberal globalisation and crisis, welfare state retrenchment and desecularisation of society, amid uniquely European controversies over immigration, integration and religious-based radicalism, this timely book explores the role played by faith-based organisations (FBOs), which are growing in importance in the provision of social services in the European context. Taking a multidisciplinary approach, the contributions to the volume present original research examples and a pan-European perspective to assess the role of FBOs in combating poverty and various expressions of exclusion and social distress in cities across Europe. This significant and highly topical volume should become a vital reference source for the burgeoning number of studies that are likely follow and will make essential reading for students and academics in social policy, sociology, geography, politics, urban studies and theology/ religious studies.

Stephen B. Bevans 2002
Stephen B Bevans’s Models of Contextual Theology has become a staple in courses on theological method and as a handbook used by missioners and other Christians concerned with the Christian tradition’s understanding of itself in relation to culture. First published in 1992 and now in its seventh printing in English, with translations underway into Spanish, Korean, and Indonesian, Bevans’s book is a judicious examination of what the terms "contextual theology" and "to contextualize” mean. In the revised and expanded edition, Bevans adds a "counter-cultural" model to the five presented in the first edition -- the translation, the anthropological, the praxis, the synthetic, and the transcendental model. This means that readers will be introduced to the way in which figures such as Stanley Hauerwas, John Milbank, Lesslie Newbigin, "and (occasionally) Pope John Paul II” need to be taken into account. The author’s revisions also incorporate suggestions made by reviewers to enhance the clarity of the original three chapters on the nature of contextual theology and the five models.
